V-Twin Audio VTRSH, radio rear output plug

Remove outer fairing (FLH or FLTR), locate the 35 pin connector on the back of your Harmon Kardon radio (right side of radio, while standing in front of bike). Plug VTRSH in and run wires to your Tour-pak or saddlebag lid speakers.

Green wire is left (+), Green/Black is left (-)

Purple wire is right (+), Purple/Black is right (-)

Note: After installation you will have sound, just no fader! For fader function, go to an HD authorized dealer & get radio flashed with their Digital Tech device.
